Summary

Passionate Problem Solver | # Software Developer | Web Enthusiast

Hello! I'm Amar Zaidi, a versatile software developer with a deep love for problem-solving and a knack for programming. Here's what defines me:

Programming Proficiency: I excel in programming languages such as Python and C#, using them to craft innovative solutions and robust applications.

Application Development: With substantial experience in desktop application development using C# and Python, I've crafted user-friendly software that streamlines processes and enhances user experiences.

Web Development: I'm well-versed in web development, specializing in the MERN Stack, and have created dynamic and interactive web applications.

Backend Expertise: I'm your go-to backend developer, capable of designing and implementing professional backend systems for websites and desktop applications.

Web Automation and Scraping: I have honed my skills in web browser automation and web scraping, crafting web bots and automating various online and programming tasks.

Cybersecurity Advocate: Ensuring security is paramount, I incorporate cybersecurity measures into my applications to keep them safe and sound.

Database Maestro: I design and manage databases efficiently, ensuring data integrity and optimal performance.

Freelance Experience: I've successfully tackled projects on freelance platforms and catered to private clients, delivering top-notch solutions on time.

Communication & Project Management: My strong communication and project management skills allow me to coordinate and execute projects effectively, ensuring they meet or exceed expectations.

Above all, I'm deeply passionate about programming and committed to delivering excellence in every project I undertake. Let's connect and explore how I can bring my expertise to your team or project!

Experience

Web Browser Automation | Web Scraper | Python Developer

Upwork

Jun 2023 - Present (8 months)

Python Developer | Web Scraping & Browser Automation Specialist

Leveraging Python prowess to excel in web scraping and browser automation, I specialize in streamlining tasks and optimizing workflows. My key contributions:

Web Scraping Mastery: Expertise in Python-based web scraping techniques, extracting valuable data efficiently and accurately, empowering data-driven decision-making and research.

Browser Automation: Proficient in crafting custom web bots and scripts for diverse web tasks, from data entry to complex interactions, drastically reducing manual effort.

Data Analysis: Beyond collection, I process and analyze data, delivering actionable insights for informed decision-making and competitive advantage.

Cybersecurity Vigilance: Committed to ethical data practices and data security during automation, ensuring responsible and secure data handling.

Performance Optimization: Continuous enhancement of automation scripts and scraping algorithms for increased speed and efficiency.

Custom Solutions: Collaborate effectively to create tailored automation solutions, solving unique business challenges with precision.

Project Management: Efficiently manage projects, meeting deadlines and objectives with clear communication and a proactive approach.

Innovation-Driven: Passionate about innovation, I stay current with industry trends and explore emerging tools and techniques.

Let's connect to explore how my skills can elevate your projects. Whether you need web scraping solutions, automation expertise, or a Python developer, I'm here to help you succeed!

Automation Developer

Fiverr

Sep 2022 - May 2023 (9 months)

Education

University of Engineering and Technology, Lahore

Bachelor of Science - BS, Computer Science

2021 - 2025

Licenses & Certifications

Python(Basic) - HackerRank

C# Basic - HackerRank
